## RECOMMENDED MANUALS

There is so much more to shotshell reloading than just the load data. Safety is your TOP priority. In order to become a safe and competent reloader, one must continue the learning process

by reading and researching. Don't try to outsmart the instructions! We offer over a half century of loading knowledge, wit, and wisdom in our publications. Our manuals are continually upgraded with new data and the latest tools and techniques. Available in print version or downloads from our website. Therefore, we encourage you to master the information in our manuals, brochures, and "Load of the Week" at www.ballisticproducts.com

## OTHER USEFUL COMPONENTS

20GA 1/8" CORK WADS 18CW20 | #1222820

20GA 1/4" CORK WADS 14CW20 | #1222420

20GA 1/8" FELT WADS 18FW20 | #1221820

20GA 1/4" FELT WADS 14FW20 | #1221420

12GA OVERSHOT CARDS 0S12 | #0S 12

Filler & cushion wads occupy space below the pellets so that the load can be crimped properly. Remember, different payloads and different pellet sizes occupy different volumes, so you will want an assortment of sizes on hand. Overshot cards improve overall crimp quality and seal in small shot and/or buffer. We recommend 20 gauge felt or cork fillers for inside the 12 gauge wads.
