BPI COMPONENT GUIDE:

RO28 WAD

WWW.BALLISTICPRODUCTS.COM

Exclusively at BPI: OUR LATEST VALU-WAD

BPI is your only source of many exclusive items from one of the world's top manufacturers of ammunition components, FIOCCHI. This high-performance 28ga wad is new from our friends at Fiocchi: This is their world-class 28ga target and field wad. You can't buy this wad anywhere else in the world. It's only at BPI and we've got it at an almost unbelieveable price.

EXTRA VALUE: The RO28 wads are packaged in big bags of 250 or bulk cases of 10,500.

Field Tests: Our lab has already been utilizing this wad in trap, skeet, and sporting clays applications. Ideal for mid to long-range shots and clay target shooters will note the consistent patterns

RECOMMENDED MANUALS

There is so much more to shotshell reloading than just the load data. Safety is your TOP priority. In order to become a safe and competent reloader, one must continue the learning process by reading and researching. Don't try to outsmart the instructions! We offer over a half century of loading knowledge, wit, and wisdom in our publications. Our manuals are continually upgraded with new data and the latest tools and techniques. Available in print version or downloads from our website. **Therefore, we encourage you to master the information in our manuals, brochures, and "Load of the Week" at www.ballisticproducts.com**

Filler & cushion wads occupy space below the pellets so that the load can be crimped properly. Remember, different payloads and different pellet sizes occupy different volumes, so you will want an assortment of sizes on hand. Overshot cards improve overall crimp quality and seal in small shot and/or buffer. **We recommend .410 & .430 Bore fillers for inside the 28 gauge wads.**
